

G-Soft

Quest

DATABASE MANAGEMENT SOFTWARE

PRODUCTS FOR DATA OPERATIONS

Foglight for DB2

Provide scalable, intelligent, web-based monitoring 24x7 with ease

Foglight for Oracle

Manage, diagnose and optimize Oracle database performance, on premises and in the cloud.

Foglight for SQL Server

Ensure the health of your SQL Server databases with comprehensive performance monitoring

Foglight for Cross-Platform Databases

Consolidate and standardize database performance management across diverse environments.

Foglight for MongoDB

Rapidly detect, diagnose and fix issues across physical, virtual and cloud-based servers.

Foglight for Cassandra

Rapidly detect, diagnose and fix issues across physical, virtual and cloud-based servers.

Foglight for PostgreSQL

Proactively manage the health and performance of your PostgreSQL database infrastructure.

Foglight for SAP ASE

Resolve issues faster with continuous, scalable, web-based Sybase database monitoring.

LiteSpeed for SQL Server

Minimize backup size and duration with high-speed SQL Server backup, compression and restore.

SharePlex

Achieve Oracle database high availability – on premises and in the cloud.

Spotlight on SQL Server Enterprise

Diagnose SQL Server performance issues quickly and accurately for a healthy database infrastructure

SQL Navigator

Write, edit and maintain database objects through automation and an easy-to-use graphical interface

Stat for PeopleSoft

Simplify change management requirements for PeopleSoft applications.

Stat for Oracle E-Business Suite

Automate application change management in Oracle EBS to support DevOps and compliance.

Space Manager with LiveReorg

Deliver capacity optimization, Oracle reorganization and peak performance with ease

Toad for Oracle

Develop and manage Oracle databases with less time and effort.

Toad for IBM DB2

Improve and accelerate daily development and administrative tasks on Linux, Unix and Windows

Toad for SQL Server

Reduce time spent on SQL Server application development and database administration.

Toad Data Modeler

Create high-quality data models and easily deploy accurate changes to data structures

Toad Data Point

Simplify data access, preparation and provisioning.

Toad for SAP Solutions

Streamline SAP development and administration.

Toad Intelligence Central

Seamlessly share data, files and projects across Toad teams. It's time to connect.

Toad Edge

Simplify development and management of MySQL and Postgres environments

Toad DevOps Toolkit

Toad DevOps Toolkit boosts DevOps velocity by integrating Oracle database change management

Toad for Oracle - Sensitive Data Protection

Find and control sensitive data across all your Oracle databases quickly and easily.

PRODUCTS FOR DATA PROTECTION

Backup & Disaster Recovery Suite

Match your backup to your business and increase capacity as your business grows.

Foglight for Exchange

Quickly detect, diagnose and resolve virtual and physical Microsoft Exchange performance problems

Foglight Evolve Cloud

Conquer the hybrid cloud risk free and under budget.

Foglight Evolve Monitor

Detect, diagnose and resolve problems before they become a catastrophe.

Foglight Evolve Operate

Unlock hidden resources and reallocate computing power where you need it most.

The logo for G-Soft, featuring the letters 'G' and 'S' in blue and 'o' and 'f' in red, with 't' in blue.The logo for Quest, featuring the word 'Quest' in a bold, orange, sans-serif font.

NetVault

Get application and data protection for physical, virtual and cloud environments

QorePortal

Cloud-based portal for managing Quest data protection solutions

QoreStor

Accelerate backup speed, reduce storage costs and use the cloud for disaster recovery.

Rapid Recovery

ZeroIMPACT recovery – anything to anywhere – physical, virtual and in the cloud.

vRanger

Accelerate VMware backup and replication while dramatically reducing storage requirements.

PRODUCTS FOR DATA GOVERNANCE

erwin Data Modeler

The first and most trusted data modeling software, including NoSQL data modeling.

erwin Data Intelligence

An enterprise data governance and intelligence platform with data catalog, data literacy, data quality and automation capabilities.

erwin Data Catalog

Software that automates the processes involved in harvesting, integrating, activating and governing enterprise data according to business requirements.

erwin Data Quality

Integrated data quality capabilities to automate data profiling and data quality assessment, deliver data quality visibility, and address data remediation.

The logo for G-Soft, featuring the letters 'G' and 'S' in blue and 'o', 'f', and 't' in red, all in a handwritten-style font.The logo for Quest, featuring the word 'Quest' in a bold, orange, sans-serif font.

erwin Data Literacy

Business glossary management and self-service data discovery tools to curate, associate, govern and socialize data assets within a business context.

erwin Data Connectors

erwin-built data connectors automatically scan, integrate and activate metadata within erwin Data Catalog, and can automate the development lifecycle.

erwin Evolve

A full-featured, configurable set of enterprise architecture and business process modeling and analysis tools.

erwin Cloud Catalyst

Automated data modeling, movement and governance software and services to simplify cloud migration.
