It all starts with a great design

Xara Designer Pro+ is a version of our longstanding all-in-one application Xara Designer Pro X. It combines the best of desktop publishing, web design, photo editing and graphic design – a compact workspace for all your creative work in print & web.

Desktop Publishing

From flyers, brochures or e-books to business cards or presentations, layout your projects professionally by:

- Using our powerful text handling & page layout features
- Integrating Designer Pro+ in your current workflow with 30+ file formats for importing & exporting
- Getting inspired by our comprehensive template collection for print & web

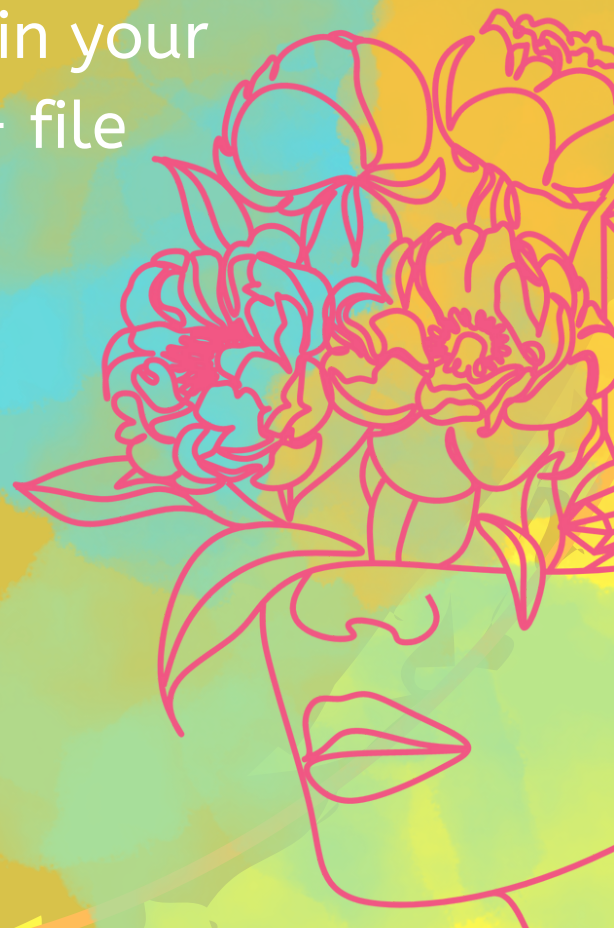

Photo & Graphic Design

Create stunning designs easily with intuitive photo editing & graphic design tools.

Experience:

- Powerful photo retouching and 130+ impressive photo filters
- Industry-leading vector drawing for illustrations and icons
- Many inspiring effects, brushes and shapes to express your creativity

Web Design

Easily create high-quality websites for companies or events starting from a template.

Benefit from:

- Simple drag-and-drop design. No coding skills required
- Ready-made sliders, interactive galleries & HD players for photos & videos
- Search Engine Optimization
- 240+ well-designed website templates
